

Safety Information Catalog

Electrical

Category	ID #
Responding to electrical emergencies	700A
Electrical safety & workplace fire hazards	700B
Respect electricity (English & Spanish)(poster)	700C
Bad wires can cause fires (English & Spanish)	700D
The hazards of electrical shock (English & Spanish)	700E
Working safely with electricity (English & Spanish)	700F
Be safe when working with electricity (English & Spanish)	700G
Electric shock (English & Spanish)	700H
Electrical safety guidelines	700I
Electrical safety (The hazards of overloading cable trays)	700J
Working sensibly with electricity	701A
Portable electrical equipment	701B
Ground fault circuit interrupters	701C
The importance of electrical grounding	701D
Using portable generators safely	701E
Extension cord safety (English & Spanish)	701F
Working near overhead power lines (English & Spanish)	702A
Cranes & power lines don't mix	702B
Keep your distance - working near overhead power lines	702C
Watch out for power lines	702D
Downed power lines	702E
Look out above	702F
Working safely around downed power lines	702G
Watch out for those electrical arcs!	703A
It's shocking (How electricity reacts with your body)	703B
Understand conductivity - it could save your life	703C
First, de-energize!	703D
